

ALCiE[®] Procurement Management

Enhance Your Purchasing Power

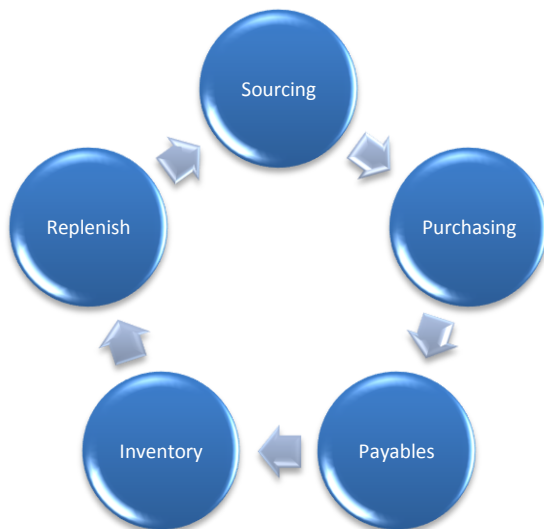

ALCiE Procurement Management is designed to help organizations implement business processes to easily initiate, authorize and monitor purchase requests – while promoting efficient, timely and cost-conscious procurement practices.

*** TOP 3 BENEFITS ***

- 1. Saves You Money:** ALCiE Procurement Management enables your organization to be more efficient in its purchasing process and more disciplined in its purchasing practices, saving you money year after year.
- 2. Astounding ROI:** Implementing a best-fit ALCiE solution, customers have reaped the benefits of their investment by achieving – and maintaining – an astounding Return on Investment (ROI) resulting from increases in accuracy (i.e. less errors) and improved process flow.
- 3. Fit For Success:** ALCiE Best-Fit Solutions are designed and configured to fit your business by providing the functionality your organization truly needs for improved operational and financial results.

"ALCiE helps augment productivity by enabling better business decisions based on live information."

ALCiE Procurement Management consists of the following modules:

ALCiE Sourcing and Multi-Level Approval ...

facilitates purchase requests, allows single or multiple authorizations to purchase, and provides Request For Quote & Vendor Response Evaluation functions.

ALCiE Purchasing ...

seamlessly takes over from Sourcing via automatic generation of Purchase Orders that can be issued electronically, and received accurately in real-time.

ALCiE Accounts Payable ...

completes the Purchasing cycle, by enabling the matching of Vendor invoices against PO receipts, assisting in payment planning, and providing EFT payment processing.

ALCiE Inventory Management ...

has "the goods" when it comes to real-time and accurate tracking of on-hand and on-order quantities, across multiple warehouses and stocking locations.

ALCiE Replenishment ...

provides a degree of automation for inventory repurchases based on various methods, such as Economic Order Quantity or minimum on-hand quantity.

ALCiE software is affordable, scalable, adaptable, and extremely dependable!
