"We are pleased to be participating in this significant business show", said **Anthony Paraskevas**, Vice-President of Marketing, Business Development and Partnerships at ALCiE Integrated Solutions. "In addition to our marketing activities within the US market, the Canadian SMB market is also quite important to ALCiE's expansion plans. "The shows reflect a *solutions-oriented* theme designed to address SMB's immediate business needs and we want to present ALCiE as a way to leverage our revolutionary products that allow for customized financial-accounting, project, and other operational solutions in a cost-effective approach", he added.

According to the show's organizer:

→ SMB World™ was designed following extensive research and consultation with many small and medium business establishments, major information technology & financial vendors, as well as industry associations. The event builds upon insights and foresights of many industry experts, an industry advisory committee, an online survey and recent research reports published by various government agencies and private organizations.

→ SMB World™ will bridge the gap between SMB enterprises and industry vendors. It will provide a unique networking opportunity that will facilitate an exchange of experiences and ideas, generate business synergies and encourage business partnerships among its participants. If your organization is a growing small- or medium-sized enterprise, this event will help your business thrive in today's competitive global market."

→ SMB World™ and its Educational Forums will provide comprehensive and targeted education on how these enterprises can leverage effective management strategies, customized financial solutions and technological innovation for improved productivity and enhanced profitability.
