

ALCiE[®] Lumber Supply Chain Suite

Expediting Supply Chain processing through Automation

ALCiE Lumber Supply Chain Suite combines the power of Supply Chain Management (SCM) and Customer Relationship Management (CRM) in software specifically designed for lumber resellers. It allows businesses to minimize administration time and labor costs for their Supply Chain functions and maximize processing efficiency.

ALCiE optimizes Wood Products Sales Order Management, Purchasing, Order Fulfillment, Quotations and CRM. It enables Purchase Orders to be auto-generated from Sales Orders, Quotations to generate Sales Orders, and uses Customer historical data to auto-generate Quotes. Customer and Vendor accounts have integrated Contact Management, and multi-location Inventory processing is integrated throughout. All screens are designed to accommodate Lumber specific info.

“We love ALCiE. It greatly reduces processing time while increasing accuracy. This has improved productivity, allowing us to sell more and to expand our operations.”

Angie Barham, Office Manager, Southmark Forest Products.

Top 3 Reasons for using use ALCiE Lumber Supply Chain Suite

- Efficiency:** ALCiE empowers companies to streamline operations and cut processing time.
- Cost-savings:** ALCiE solutions help companies to reduce non-productive administrative costs.
- Best-fit:** ALCiE software is optimally configured to cater to lumber traders’ operational needs.
