

Payroll Software on Latest Oracle Technology by ALCIE Integrated Solutions Inc.

ALCIE Integrated Solutions Inc. (AIS), a provider of ERP software and Business applications, announces a new technology release of ALCIE Payroll on Oracle Forms and Reports 12c. This release of ALCIE Payroll is intended for businesses that want to run their applications, securely and affordably, in a Private or Public Cloud, using the latest Oracle technologies.

Montreal, Quebec, November 2017. ALCIE Integrated Solutions Inc. (AIS) announces a new technology release of [ALCIE Payroll](#) - a product version that empowers companies to securely access their payroll system on a publicly-hosted ALCIE system or from their internally-hosted, on-premise ALCIE system.

The new version of [ALCIE Payroll](#) is developed using the latest Oracle technology (Forms and Reports 12.2.1.3.0) and, as always, runs on all Oracle Database products. This combination provides the renowned reliability and robustness that ALCIE and Oracle users have enjoyed for decades.

“Oracle Forms and Reports 12c technology allows for both browser and browser-less deployment configurations. This provides companies with the ability to access to their applications in a variety of platforms and environments,” says Frank Zanfino, Director of Operations at AIS. “Also, companies with distributed operations can process payroll either centrally or from each of their various locations. They choose what works best for them.”

ALCIE Payroll is fully integrated with [ALCIE Financials Suite](#) (Accounts Receivable, Accounts Payable, General Ledger, and Fixed Assets) and can be installed with these modules as part of a broader solution. It is also available as a standalone application, [ALCIE Payroll Suite](#), which is installed with supporting applications from ALCIE General Ledger and ALCIE System Administration Tools.

More information on [ALCIE Payroll](#) and [ALCIE Payroll Suite](#), as well as the full range of ALCIE business solutions, can be obtained by visiting the website www.alcie.com or contacting AIS directly.

About ALCIE Integrated Solutions Inc.

ALCIE Integrated Solutions (AIS) is the owner and developer of the unified family of ALCIE business applications software.
