Procurement Management Software Solution by ALCiE

ALCiE Integrated Solutions Inc. (AIS), a provider of ERP Software and Business Solutions, announces a new software solution under the name ALCiE Procurement Management.

* * *

ALCiE Procurement Management is the latest addition to the growing family of ALCiE software solutions that are geared towards helping organizations improve specific areas of their operations and positively impacting the bottom line.

In particular, using ALCiE Procurement Management enables an organization to be more efficient in its purchasing process and more disciplined in its purchasing practices, thus helping to better manage expenditures and generate greater savings.

This procurement software solution has all of the required components, namely: Purchase Requisitions, including Sourcing and Multi-level Approvals with notifications; Purchase Orders; Accounts Payable; as well as Inventory Management and Replenishment, if needed. As with all ALCiE solutions, these modules work together seamlessly in an integrated environment.

More information on ALCiE Procurement Management, as well as the full range of ALCiE solutions, including Suites, Editions and Elements, can be obtained by contacting AIS or visiting the website www.alcie.com.

About ALCiE Integrated Solutions:
ALCiE Integrated Solutions ("AIS") is the owner and developer of the unified family of ALCiE business applications software. AIS's mission is to create and deliver best-fit, cost-effective and scalable solutions to meet the business requirements of small-to-mid-sized, growth-oriented enterprises. ALCiE business applications software distinguishes itself as an affordable, truly integrated and scalable option for a variety of industries and sectors. ALCiE applications are built on robust and dependable Oracle technology.
